

SECCORE

Security for Constrained RESTful Environments

T2TRG, December 12, 2022

Göran Selander

SECCORE

- New activity in T2TRG
- Received good feedback, looking for drivers/penholders for topics

Ongoing work:

- Amplification attacks with CoAP ([draft-mattsson-t2trg-amplification-attacks](#))

New candidate topics:

- Software update using CoAP group communication
- Delegation of rights using ACE-OAuth access tokens
